PRICE 5 CENTS

# Council Approves Vote For Building Auditorium

## Money By-Law Will Go to Burgesses

City council politely kicked the Blend-Spence-Sales civic auditorium recommendation squarely in the face last night without even formally considering the survey report.

Climbing a hectic and bitter debate, council approved preparation of a money by-law to provide a civic auditorium on the previously OK'd civic centre site.

The planning experts had recommended the auditorium be built in the "cultural buildings" area south of Jasper between 100 and 150 streets.

Aldermen G. E. Glave and R. Parsons were only ones voting against preparation of the by-law.

And, Parsons said, this is the wrong time to embark on such a project. No financial assistance can be expected from either provincial or federal governments unless the project is needed to stimulate employment. It should be held until the peak of Edmonton's building program is passed, and then thrown in.

"I am not paying for an auditorium at the proper time," he said.

NOT THE TIME? Ald. Glave did not support the motion because he said the auditorium would not even pay interest on the money needed to build it. This is not the time to put up an auditorium.

Citizens should be allowed the right to prepare themselves at the time of the vote, said Ald. H. E. Tanner.

Ald. Acheson Bisset thought Ald. Parsons' argument struck home on the money needed to build it.

"I am not paying for an auditorium more than they want to build it," he said. Many want an auditorium more than they want to build it, he said. Many want an auditorium more than they want to build it.

By-law SEBAC If the by-law is not submitted this year, it is probable the city will include it in its next year's budget.

**\$200,000 Fire Razes Pier**

ATLANTIC CITY, N.J., Sept. 13.—(AP)—A \$200,000 fire ripped through the pier of the famed million dollar pier early today.

The well-known landmark, which is just 1,500 feet into the ocean on the downtown section of the boardwalk, caught fire about 4:30 a.m.

A northeast wind blew roaring flames down the beach away from boardwalk hotels.

The pier's huge ballroom, near the shore end, was gutted completely. Twisted rod girders fell into the blaze. Fire chief Alex Farley set the damage estimate at \$200,000.

Total cost has been estimated at \$85,000, with another \$30,000 required as working capital.

The pier line saw an estimated 1,000,000 barrels a year in U.S. dollars.

**CNR Official Dies At Winnipeg**

WINNIPEG, Sept. 12. (CP)—Blake Arthur Latta, 50, general superintendent of the Canadian National Railway, died at his home here today after an illness of several weeks.

Mr. Latta started with the Canadian National in July, 1903, in Ontario, moving west the following year. He was superintendent in Edmonton from 1922 to 1930 when he assumed his post in Winnipeg.

He was born at Latta, Ont.

## Frost Loss May Reach \$3 Millions

### 2 Heavy Frosts Severely Damage Grades, Late Yields

Second killing frost in as many days blackened Central Alberta gardens last night and sent crop damage soaring near the three million dollar mark.

With 40 per cent of the crop under in Central Alberta, farmers will likely take a 15-cent per bush loss by marketing frost damaged wheat, and a ten cent a bush loss on oats and barley.

GRADES SLASHED Department of agriculture officials estimate that wheat and barley will be reduced from No. 3 to No. 5 as a result of two successive nights of heavy frost, and both yield and quality of oats and barley will be seriously affected.

Frost last night extended from south of Red Deer into the Grande Prairie and Peace River districts. It also hit Saskatchewan grain crops, damaged where frost struck Alberta Sunday night.

W. Wilson, farm crops commissioner for the province, said today of the 1,877,000 acres of wheat, Central Alberta about 670,000 acres remain to be cut and were heavily damaged by frost last night and Sunday night.

Yield of not more than 14 bushels an acre was expected from the heavy frosts.

About 300,000 acres of oats and barley are still uncut and will suffer seriously from the frost.

That means farmers will take a \$600,000 loss on frost-damaged barley and a \$700,000 loss on frost-damaged oats. Loss per bushel is expected to be about ten cents as grades are reduced by frost damage.

Total loss of wheat, oats and barley returns in the Central Alberta area where frost damage struck is expected to be \$2,600,000.

Very little frost is expected tonight in any part of Alberta, and high temperatures today in the Edmonton area will near 10 degrees.

Manager Larry Shree of KWTO said the day's terminology was promptly changed.

**PEANUTS, SEZZE, AND PEANUTS HE RECEIVES**

BANSTOW, Calif., Sept. 13.—(AP)—Radio announcer Bill Putnam changed figures of peanuts — 2.98. Mrs. Nara Pivko showed up a short time later with 28 peanuts, west of the city by city council.

The city on which the Macdonald hotel extension will be built, starting next spring, are still owned by private interests, and city commissioners were authorized to undertake expropriation proceedings if necessary.

**Britain's Water Supply Threatened**

LONDON, Sept. 13.—(Reuters)—Britain's water supply will be seriously threatened unless there are substantial rainfalls within the next few weeks, the British Waterworks Association said today.

Saints be praised! We are told in the New Bulletin that the greatest fault in Bulletin was said and their respective successes, something happened yesterday that makes us think that we are not alone.

A University instructor and his wife needed a suite or house by Sept. 20.

In Edmonton, that's a mighty tough order. But after just two advertisements in the classified section of the New Bulletin, they found a room, furnished suite, at "fairly reasonable" price, and are now very happy according to word we got this morning.

Phone 42111 and try Bulletin ads.

**Red Acts Protested**

BERLIN, Sept. 12.—(Reuters)—The three western commands have protested against the Soviet-controlled R. F. O. Administration's "unilateral" action of the Berlin strike settlement treaty. It was disclosed here last night.

**EVEN HAS MEMORY**

10-Ton Mechanical Baby Makes Math Look Simple

CAMBRIDGE, Mass., Sept. 13.—(AP)—Harvard's brain trust today had a new baby brain, weighing 10 tons.

The proud parents, in what is officially known as the Harvard Computation Laboratory, modestly admitted that their ponderous infant is a prodigy that—on many "chemical" problems—can out-think the whole family.

More than 600 physicians, mathematicians, economists, statisticians and industrialists dropped in today and stood slightly to the right of the Harvard infant, "unveiling" their new baby.

Mark III, that is what they call his pompous progeny, is a 36-digit numbers together more than 1000 times faster than the mathematicians could write down the numbers to be multiplied.

But the bright youngster said he could do more than that. His magnetic memory system, comprising steel tapes that race through drums, 10 miles of wire, in radio sets—3,000 relays and 2,500 magnetic heads, can lead him through a problem involving as many as 4,000 steps.

His parents are Dr. Benjamin Moore, assistant director of the computation laboratory, and Dr. Wang Wen, assistant professor of applied mathematics.

## \$1 1/2 Million Scheme OK'd

Over half million dollars in civic improvements were given city council approval last night.

Meeting in regular session, council approved a \$1,500,000 scheme for new watermain construction in the city of 1949.

2,000,000 for purchase of telephone exchange equipment and 14,000,000 for the purchase of a new electric light plant.

4,000,000 for paving, graveling and other improvements in the city of 1949.

This is a total of \$9,700,000. Council also instructed commissioners to investigate charges that old-style square corners were being used on paving project on 14 avenue.

Council said this type of paving nullifies benefits of newer cast basins.

**U.K. Rescued From Crisis**

WASHINGTON, Sept. 13.—(AP)—State Secretary Dean Acheson and Foreign Minister Ernest Bevin today began chiding new western moves in the cold war. They agreed that the British have been rescued from the threat of economic disaster.

A Russian attack on Britain's plight, worked out by Acheson, Bevin and other American, British and Canadian cabinet ministers, was announced here as assuring Britain's prompt recovery from its current dollar crisis and also promising her a more secure economic future.

Final agreement in the week-long three-power conference came late yesterday. Acheson and Treasury Secretary John W. Snyder declared that the United States would find ways to give Britain more freedom in spending its Marshall Plan dollars, easier access to American markets and an increased volume of sales to the United States of such items as rubber and tin.

These and other measures, including possible British trade discriminations against the United States in order to save dollars by buying elsewhere, were welcomed by Bevin. He viewed them as securing the economic basis for Britain's active role as a partner with America, the United States and other western countries in the conflict with Russia and in the drive for greater western security.

**CHURCHMAN PRAISE**

R. J. Haller, minister of First Baptist church said, "I am very glad to be associated with this type of service. The Bible line is the basic unity of the church."

This was also an ideal service. (Continued on Page 2) See "Church of the Open Air"

**Church of the Open Air**

A series of three open air interdenominational church services on Sunday afternoons will be held in the Drive-In Theatre, starting next Sunday.

To be known as "Church of the Open Air," it is a new project of prominent Edmonton churchmen and is being offered as a public service by the new Bulletin and management of the Drive-In theatre.

Idea of the open air service is to bring the family together in worship and to give children and others a chance to attend a Sunday service.

Sponsoring the series are the Anglican, Catholic, Presbyterian, Baptist and United Church faiths.

First of the series will be presented Sunday afternoon at the Drive-In Theatre, starting next Sunday.

See Pictures on Page Three

**'Church of Open Air' Starts Next Sunday**

REV. E. J. BAILEY AND REV. J. MACBETH MILLER Will conduct service.

## NAVY STARTS WINTER TRAINING

ANCHORS AWEIGH was order of day for HMCS Nonsuch as new season training of hardy young recruits got underway yesterday. Edmonton's Naval Reserve division specializes in naval and aircraft defence and new training devices have been installed aboard ship for this purpose. Inspecting ship's company in Commander L. R. Hoar, captain of HMCS Nonsuch. Other officers with captain included Lt.-Cmdr. George Manning, executive officer; Lt.-Cmdr. E. W. Barrie, first lieutenant training commander; Lt. J. A. Rose, company commander.

## Alta. Urged Not to Scare Off Oil Industry Millions

By Ken Liddell  
Principal News Editor

JASPER, Sept. 13.—Oil men are prepared to spend hundreds of millions of dollars in the next few years and benefits to the people will continue in an increasing degree but subject to a big "if."

So said C. D. Nickle, Calgary, journalist associated with the industry, in an address prepared for delivery at a convention of the Canadian Weekly Newspapers Association at Jasper Park Lodge last night.

"The 'if' said Mr. Nickle, who is publisher of the Daily Oil Bulletin and editor of Oil in Canada, was continued favorable political and economic weather."

Oil companies, he said, were prepared to spend that kind of money in development, refineries, pipelines, "provided there is a reasonable prospect of profit commensurate with the risk."

"The greatest mistake that we could make would be to kill the goose that is laying us many a golden egg," he continued. "Let's look on oil as a friend and partner who is taking all the financial risks but cuts in for a major share of the fruits of his efforts."

"We can't lose under the present setup. If we should let greed get the better of us, we could hardly blame oil for breaking up the partnership."

Mr. Nickle said natural resources worth three billion dollars had been discovered in Alberta by western oil industry and it was only a tiny fraction of the ultimate exploration job.

As a result every Canadian was enjoying direct or indirect benefits, he said.

**VITAL REVENUE** He enumerated these as prospective self-sufficiency in a resource as vital as food, clothing and shelter because of dependence on petroleum, increased employment and dominion returns, and reduction in perhaps elimination of greatest single drain on Canada's U.S. dollar supply.

High transportation costs had temporarily stemmed the flow of about \$200 million barrels daily but this may move up to 75,000 barrels daily in the next year with aid of temporary measures to burst the economic barrier, pipelines was one of these measures.

Referring to benefits to the Alberta government, he said it was almost certain that the province's oil revenue this year alone would exceed the entire revenue of all other sources in the mid-thirties.

In five months, he said, the provincial treasury had garnered \$20,000,000 from sales of crown resources and an estimated \$200,000,000 for fees and royalties.

It was certain, he said, that because of oil Alberta this year would see its greatest surplus in its history, with figures for the first quarter alone set at \$52,500,000.

**Sea Record** MONTREAL, Sept. 13.—(CP)—The 6,500-ton Norwegian cargo ship Longsight yesterday broke the record for the Norway-Montreal run, arriving here in six days, 17 hours.

Previous record was seven days, four hours.

**COMPETENCE QUESTIONED** Mayor Ainslie said he questioned the competence of experts reporting on the city's fire fighting force.

But as there was no accompanying statement regarding the competence of the engineers making the report, he had taken the only course open, that of investigating their competence before arriving at his decision.

The next day, after doing so, he had readily agreed to having it referred as evidence.

For anyone saying he was objecting to the report going in is wrong," he said.

**LETTER TABLED** Council decided to table the letter until a report of the present inquiry is received.

"Notwithstanding what the newspapers have said, we had no objection to pulling the underwriters report before the judicial inquiry," said Mr. Garside.

# City Pump Station Costs \$1 Million

Imperial Oil Building  
Terminal Of Pipeline

Terminal pumping station to be built near Edmonton for the trans-Canada oil pipeline will cost between one, and one and one-half million dollars.

It was learned today that the pumping station construction has begun. Contract for excavation and clearing of the pump station site has been let, and contractor has started work.

Big pumping station will send Central Alberta oil from Edmonton to Regina through the 28-inch pipeline approved by the board of transport commissioners.

Originally planned for 16-inch diameter size of pipe was changed to 20 inches diameter from Edmonton to Regina. The 1,500-mile crude oil line will run from Edmonton to the Lakehead in Ontario, and is expected to be completed by next fall.

Changes in diameter of Edmonton-Regina part of the line has necessitated revision of previous plans for the Edmonton pumping station.

However, it is definitely known that the pumping station will cost "well over \$1,000,000."

To cover a quarter-section of land, the station will be located one and one-quarter miles east of the Imperial refinery in the bend of highway 16 where the road turns north after leaving Edmonton.

It is expected the station will have four huge pumps, three full-time and one spare, with total of 4,500 horsepower.

Six huge oil storage tanks will be constructed on the station site. Capacity of these tanks has not yet been decided.

No dwelling houses will be constructed at the Edmonton terminal of the interprovincial pipeline.

However, booster stations across the Dominion will have oil employer houses. These booster stations will have oil storage tanks, but will maintain oil flow through the line.

HAS STARTED

Construction has begun on the first booster station, near Kerrobert, Sask., about 40 miles over the Saskatchewan border.

Recently, local experts from the University of Alberta engineering faculty tested ground at the station near Kerrobert to ensure that the station could be safely constructed there.

POSTER HERE

Fred Whitehorse of Ottawa, national secretary of the Canadian Postal Employees Association, was in the city yesterday in course of a business trip through the west.

BRIEF INSPECTION

Winston D. Porter, chief crop inspector of the Dominion Bureau of Statistics, paid a brief visit to the city recently. Mr. Porter is gathering information to be presented to his department for preparation of annual reports.

MEET GOWN

H. E. Pawson, Montreal, president, East Kootenay Power and Light Co., accompanied by G. E. Kington, Fernie, B.C., engineer for the company, is here conferring with government officials.

ON TOUR

Making annual inspection of Edmonton stock yards Robert Haggan, K.C., and Charles Bauckham, both of Toronto, president and vice-president, Western Stockyards Ltd., arrived in Edmonton today.

They inspected the company's plant at the stockyards, and later conferred with L. P. Brownham, manager of the plant.

JACK HOME

Carl Gundersen of 9210-104 street, Danish vice consul here, returned home recently from a trip to Eastern Canada and the United States. Mr. Gundersen was away for two months.

TEMPORARY REPLACEMENT

Temporary replacement of Dan Campbell, provincial director of tourist publicity, by J. Gordon Morris was announced today by R. H. Moore, deputy minister of economic affairs.

Mr. Campbell yesterday began a three months leave of absence because of ill health.

MOTOR TOUR

Edmonton realtor Lorin Brower, accompanied by Mrs. Brower and members of the family, left last week-end for a holiday tour of the western United States. The Browns plan to go as far south as Los Angeles.

SHAMLEY GREEN, Surrey, Eng., and "CPI" William Bloomfield, 40 claims to be England's oldest shortster. He's been in the parish choir here for 11 years.

Edmonton Exhibition patrons next summer may be treated to the famous Musical Ride of the Royal Canadian Mounted Police.

Jim Paul, exhibition manager, director, back from a nine-day tour of the U.S. and eastern Canada, said there is a good possibility the famed Musical Ride will be here next summer.

Mr. Paul said RCMP officials are hopeful of having a ride in training at Regina next Spring in time for the Western Fair circuit.

Should such be the case, he said, "we will certainly look it up for Edmonton."

MASSED CHOIR of First Baptist Church, under direction of Mrs. F. Barber Smith, will be one of two taking part in big outdoor church service at Drive-In Theatre here Sunday. Jointly sponsored by new Bulletin and

Drive-In Theatre, venture will afford opportunity for shut-ins, cripples and veterans to participate in regular church service.

LEADER Arthur Newcombe, ATCM, will have his First Presbyterian Church choir in readiness for special opening on new Bulletin-Drive-In Theatre outdoor church service Sunday at Starlite Theatre. Mr. Newcombe,

centre of front row, will lead fine group in hymns at first service here Sunday. Series of three services are planned.

Residents of Riverdale district are asking the city for police protection from "rowdies" at Friday night dances.

At the first monthly business of Riverdale Community League, a petition signed by 34 citizens was discussed at length.

Petition dealt with "updown kids" who have been attending weekly dances of Riverdale Junior League and causing a commotion after the dances.

City is being asked for police patrol for the weekly dances, while community league members henceforth will attend dances to combat rowdiness.

TO BE INCREASED

In the past, dances have been supervised, but this supervision will be increased.

Fall and winter activities were planned at last night's meeting.

It was announced that the ladies' auxiliary of the community league has bought a fence to be placed around the playground to protect children from falling over the steep riverbank.

Previously, there has been no protection for playground children from the steep and caving-in riverbank.

Fence will be all-mesh, and "at least a block long," according to league secretary Mrs. Loyal Cavanagh.

Cost will be about \$500.

Ladies' Auxiliary has also bought new cupboards and a stove for the community hall, and arranged for piping of water into the hall kitchen.

FESTIVAL PROFIT

Most of ladies' auxiliary work is being financed by profits from the May festival.

A banquet will be held shortly for the boys' midges football team, with Mrs. Lawrence Trahan, and Mrs. Karl Tempa in charge of arrangements.

Preliminary arrangements have been made to start on the rink, and a recreation committee will meet this week to get a work best started.

Mounties May Ride In City

Edmonton Exhibition patrons next summer may be treated to the famous Musical Ride of the Royal Canadian Mounted Police.

Jim Paul, exhibition manager, director, back from a nine-day tour of the U.S. and eastern Canada, said there is a good possibility the famed Musical Ride will be here next summer.

Mr. Paul said RCMP officials are hopeful of having a ride in training at Regina next Spring in time for the Western Fair circuit.

## Riverdale Asks Police Protection From Rowdies

## COOKING LAKE MAN NAMED IN LOG THEFT

Adam R. Brese, of the Cooking Lake district, was committed to supreme court when he appeared in police court yesterday. He is charged with stealing spruce logs.

H. E. Ward, also of Cooking Lake district, charges Brese sold timber off his property.

Emile Beck, Androssian, testified he sold Brese 150 acres of property in the spring of 1948. He did not show him the boundaries of the property, he said, but believed the buyer understood them from the deed.

Beck stated in court he told Brese he did not own 13 acres in one corner of the property. Ward, the complainant, is the owner of the land. It was on this acreage that the timber was cut.

Robert Otto, Brenner, testified he entered an agreement with Beck to cut 60 spruce logs on Beck's property. He had not been instructed about the acreage owned by Ward, on which the logs are alleged to have been cut, he said.

## Golf-Playing Raffles Recalled at Mayfair

Mayfair golf club members received a shock yesterday with the arrest in Toronto of a man alleged to be another "Raffles".

They believe the jewel thief is the elusive, smooth-talking artist who arrived at Mayfair in 1945.

Auditorium Drive Slated

No time is being lost in preparing the campaign for civic auditorium drive approved by burgesses in November.

Hard on the heels of the city council's blessing last night on the preparation of a money-tying, the city auditorium committee to day called a general meeting for Wednesday night to organize an intensive publicity campaign. It will be held at 8 p.m. in the Recreation Building at 1030-104 street.

Committee chairman T. C. Baker told council last night that the group will accept responsibility for assuring approval of the by-law, either with or without a grant from council.

Every organization in the city will be approached by speakers advocating approval for the auditorium, to be located on the city centre site.

A comprehensive program of press, radio, pictorial and other publicity will be mapped at the Wednesday night meeting.

All organizations in the city are being urged to send representatives according to the announcement by Margaret W. MacKenzie, committee secretary.

"We must sell the auditorium this time," she says.

Regiment To Parade Here On Thursday

Loyal Edmonton Regiment will parade at 8 p.m. Thursday, September 15, at Prince of Wales Armoury.

Dress will include web belts, berets, puttees, battle dress.

All accessories will be welcome.

Branch Office: Tegner Building, Edmonton  
F. W. Snell, Provincial Manager

What will you be doing at his age?

A Crown Life Income Bond will help you enjoy security and happiness in your later years.

No matter the size of your income, a little put away regularly will help you independent when you retire.

Here's What a Crown Life Income Bond will do for you and you can start today to invest with security in your own future.

1. You will receive a regular monthly income for life when your policy matures.

2. It will help prevent you from becoming a financial burden on members of your family.

3. You get peace-of-mind when you know your future will be free from want.

Enquire about this investment in security today. Get in touch with a Crown Life representative. He will be glad to talk over your personal requirements with you.

# Cabinet Reviews Session Program

## Extra Meeting Is Called To Approve Throne Speech

By I'Arcy O'Donnell  
OTTAWA, Sept. 13.—(CP)—The federal cabinet meets today to review the legislative program to be presented to the first session of the 21st parliament opening Thursday.

Since the general election, June 27, the cabinet has been meeting only on Wednesdays. However, Tuesday and Wednesday meetings were called this week to give final approval to the Speech from the Throne, which will inaugurate the government's legislative plans for the coming session.

So far, there have been few hints of what the speech will contain in the way of new legislation. However, it is expected to refer to some measures left untouched when parliament was prorogued April 30 to permit calling of a general election.

**TWO FORECASTS**  
There is some speculation that the speech will forecast new housing legislation aimed at encouraging home ownership through reduced down payments. It may also mention plans to join with the provinces on low-cost, low-rental housing projects.

Both matters were discussed by Reconstruction Minister Waters with the premiers of all provinces during his recent trans-Canada tour.

Also discussed were plans for completion of a Trans-Canada highway. It is expected the government will review legislation, not passed at the last session, providing for federal financial contributions to the construction project. The federal grants may run as high as \$250,000,000, about half of the estimated cost of completing the highway.

Reference likely will be made to the current trade and currency

# Inside Hollywood

(Editor's Note: Eric Johnston is president of the Motion Picture Association of America, representing the major film-producing organizations.)

By Eric Johnston (For Bob Thomas)  
**HOLLYWOOD**—(AP)—Few people are neutral-minded about the motion picture industry. By contrast, the state of the stage, literature, radio—or even the union itself—scarcely whips up a flutter of excitement.

To me, that's all to the good. When the motion picture is concerned, I go along with the veteran politician who didn't care what people said about him, as long as he wasn't ignored.

Critics of the motion picture can be roughly partitioned into "A" and "B" varieties. The "A" critic planks down his change at the window. He pays for the privilege of pandering the movie to be back as inclined. Like the

ball fan, he has purchased the right to let it steam.

**LETTER WRITER**  
He writes his letters. I may not always agree with his verdict on a particular picture, but I heed what he says. He's the good gadfly who keeps us alerted with ambition to make more pictures he likes and fewer he doesn't.

The "B" critic is usually an intellectual snob who thinks it fashionable to look down his nose with an air of highbrow superiority at anything as mass appeal. He knows all about what's wrong with the movies, but he rarely sees one.

**PROFAGANDA**  
He wants pictures overloaded with "significant messages" and propaganda; pictures in the image of his own circumscribed point of view. No amount of pandering by professional critics can stop their mouths. In the box office if the people like a picture.

It is unusual how people discover a good picture and pass the word along as if by grapevine. No amount of professional criticism, good or bad, can shake their point of view. No amount of pandering by professional critics can stop their mouths. In the box office if the people like a picture.

The first twelve-city fire brigade contest was held in Ohio between the cities of Hildesheim, Springfield and Dayton. The brigades were made up of teams of factory companies.

# Diehl Bowl Look-See Pays Off in Riders' 12-0 Victory

## Baylor Star Sammy Pierce Puts Whammy on Eager Esks

By Stan Mohr  
Sports Editor

Alabamian Fred (General) Grant, coach of Regina Roughriders, spent last New Year's day at the sun-drenched Diehl Bowl game in Birmingham.

Baylor and Wake Forest colleges were locked in grim struggle for weeks upwards of 60,000 football fans. At the finish it was Baylor 30, Wake Forest 7.

However, long before the final whistle, Grant had made up his mind on one thing: he was going to make an all-out effort to sign one of the Baylor backs, big (6'7", 230 pounds) Sammy Pierce.

He succeeded, too, and after what happened at Clark Stadium last night, when Roughriders trampled Eskimos 12-0 in a Western Conference Football offering, Edmonton grid followers have to agree Grant made no mistake.

### Short Game Pays Off

Not that Pierce was the whole meatball, but by any means. And not that the Eskimos were outclassed, nor anything like that.

To go along with Pierce's pile-driving gains along the ground, Baylor's backfield had a dangerous forward pass combination in pitcher-quarterback Doug Belden and receiver Johnny Bell. This pair hauled in the Eskimo's first touchdown with short passes just over centre, generally good for eight to 10 yards.

And as though to prove that he could test the long ones, too, Belden rifled a 30-yard pass to Matt Anthony for the first Regina TD.

A fast moving, rebound line, especially so when the first touchdown in action, made it

that much easier for Pierce, Belden (ex-Fordham 'U') and other Roughrider offensive threats to bring off their gains.

Fumbles at critical moments twice bogged down promising Baylor drives. Belden's second fumble, a 30-yard pass to Bell, was intercepted by Doug Swail pulled the same trick in the fourth frame.

In both instances the Saskatchewan club was quick to gather in the loose ball while the crowd of 6,000 granded as one.

Following the first fumble, the ball recovered by Pierce, hurt particularly off this unexpected Eskimo fumble.

6 EDMONTON BULLETIN, Tuesday, Sept. 13, 1949

ED (LEFT) BELTER ... To hurt for Esks. LES EDWARDS ... Cub pitcher.

### ESKS MEET CUBS

## Big Four Wars Resume Tonight

Tonight's the night! Cubs and Eskimos meet head on at Rensselaer Park in the opening game of the best-of-seven series for the Big Four league championship.

Esks have been waiting for this ever since it became evident the local entries in the intercity circuit were going to be too strong for Calgary's Purists and Buffaloes.

There won't be many empty pews in the park when Cubs' manager Les Edwards, who has nominated himself to pitch for his club, tosses his high, hard one for the first time at Esks' lead-off hitter, likely to be second-baseman Bill Price.

Rivalry between the upstart Cubs as they are looked upon by certain Esks followers and the defending champion Eskimos has been rancorous all season.

It's bound to be intensified now that the big prize is on the line.

Ed (Lefty) Belter is to pitch for manager Ralph Morgan's Eskimos. Long one of the leading southpaws in these parts, Belter has an 11-game winner in the regular campaign. He was beaten eight times.

Second game is slated for tomorrow night, with the series continuing without break through Saturday, if necessary.

### Bobby Locke On Way Home

NEW YORK, Sept. 13.—(AP)—Bobby Locke, South African professional golf star who was barred from this summer's American PGA tournament, left yesterday by air for Johannesburg.

Locke said the British Professional Golfers' Association is conducting an inquiry into the reasons for the action of the American group.

The American, in banning Locke, said they no longer regarded him as a "visitor."

## RASSLERS READY FOR WINTER DEBUT

The "Boy Promoter" and eight of his proteges take over the St. Paul Pavilion tonight when Edmonton's winter wrestling season makes its early debut.

Promoter Al Orning, and eight assorted heroes and villains open tonight's effort with an eight-man tag-team match, the dirty and more scowling participants ready to emerge triumphant.

Ticket sales for the opening venture have been brisk, says Orning. Doors at the Pavilion will be flung open at 7:30, with the first hammercock on display one hour later.

## Stamps Pummel Weary Bombers

CALGARY, Sept. 13.—(CP)—Dominion champion Calgary Stampede trampled over the Western Blue Bombers last night, 32-7, for their third Western Interprovincial Football Union victory in a week. Win keeps them atop the

loop with six points.

About 2,500 fans watched the Calgaryans overwhelm the Bombers, whose major score was a sensational 30-yard run by halfback Bob Sandberg in the first quarter, at a time when Stamps were threatening for a touchdown.

Intercepted pass—Winnipeg's big wheel intercepted a lateral which end Woody Strode intended for Harry Hood on the Winnipeg 55-yard line and galloped around Stamps' right end for the surprise touchdown.

Centre Walt Edwards made the expert and that was nearly all for Winnipeg.

They led Calgary 6-3 at the end of the first quarter, but the Grey Cup champions made three touchdowns, two converted, in the second quarter to lead 20-6.

In the third period the Stamps added two more touchdowns and a rouge single against a rouge for the Bombers. There was no score in the final quarter.

Calgary pulled up 34 first downs in Winnipeg's three, two of which were made on passes. The powerful Stampede gained 223 yards rushing to 48 for the Manitoba-made 190 yards on 30 passes completed out of 39 attempted to 33 yards gained on 30 forward passes. Bombers completed 12 attempts.

HEAVY OFFENSIVE  
Stamps' first move came on Vern Graham's placement kick from 35 yards out near the start of the first quarter. In the second quarter, after several changes had brought them to the Winnipeg 35, Frank French, with Vancouver North Shore Junior Lions last year, carried the Viking over for another major score on a short plunge in the same quarter.

Pete Trados, a graduate two years ago of Vancouver junior ranks, got the third touchdown down in the quarter and Walt Charley, another Vancouverite playing his first year for the Stamps, made the convert.

In the third quarter, Bazel, a Negro end, matched a 30-yard pass from quarterback Keith Spaitz to end the quarter with a touch.

Calgary's final touchdown began on a 50-yard Spaitz-buffed pass to end Woody Strode who caught the ball behind the Winnipeg line.

NEW YORK COMEBACK  
Rocky Graziano, trim and ready yesterday predicted he will knock out Charlie Frazier in three rounds when they meet at the Polo Grounds Wednesday night.

Former 360-pound chunk broke camp at Summit, N.J., after a long training grind, during which he boxed 96 rounds.

"This is the beginning of a new career for me," said the "Rock." "The past is forgotten. There's nothing on my mind but Frazier and I'm not worried on him."

"I'm going to knock him out. I'm personally picking myself to win in three rounds, but Charlie may run. If he does, it will take me a little while to catch him, but I'll knock him out."

Frazier yesterday broke camp at Summit, N.J., after a long training grind, during which he boxed 96 rounds.

### PERFORMING

For last time in Edmonton Eskimo football uniform, Harry Irving played fine defensive game against Saskatchewan Roughriders last night. Backfielder Irving leaves for Montreal today to attend McGill University.

## Williams Still Tops AL Hitting Parade

CHICAGO, Sept. 13.—(AP)—The same familiar names—Ted Williams, George Kell and Bob Dillinger—stayed at the top of the American League's batting list last week.

But there was a slight change in their percentages through games of Sept. 13. Williams, of Boston, dropped one point from his 30.4 per cent to 30.2. Kell, of Detroit, moved up to 28.2. Dillinger, of St. Louis, in second place, lost two points, to 28.0, and Dillinger, of St. Louis, in second place, lost two points, to 28.0, and Dillinger, of St. Louis, in second place, lost two points, to 28.0.

There were two new entries into the leaders' circle during the week—Bobby Doer of Boston and Herb Evers of Detroit. Doer went into a tie with Johnny Pesky of Boston for seventh place with .265 and Evers, a tie for 12th with Ray Seaver of St. Louis, with .237.

Vern Stephens of Boston dropped from the leaders during the week, but continued to lead in most run-batted-in, 146.

Williams led in four other departments: most runs 136; most hits 121; most doubles, 36; and most homers, 27.

Allie Reynolds of New York not a leader in the preceding week, look over pitching leadership with his 164 count, good for 300 average. Virg Trucks of Detroit was tops in strikeouts with 141. Mel Parnell of Boston had the most errors, 32.

### Ray Steele Dies On Way North

Ray Steele, former world heavyweight wrestling champion and well-known referee in prize fights, died of a heart attack in Boise, Idaho, yesterday. The ex-Great was on his way to Alberta for opening of the first boxing season. He referred on Pro Wrestling Association cards at the Stock Pavilion last winter.

### South Siders Open Junior Ball Final

South side athletes, northern Alberta junior baseball champions, are scheduled to play Drumheller Legion in Drumheller today in the first two games of the north-central final.

Best-of-five series will resume in Edmonton on September 25.

By J. D.

I'm going to buy a briefcase just to carry Transit System tickets in.

Reached this decision day before yesterday after losing 13 of the 14 tickets I purchased with one of those dollars of which there is such a critical shortage. What else can I do? I know the city fathers figured a man can carry around that standardized mass of tickets in pocket or wallet is beyond me. As a matter of fact I'll be so bold as to say they didn't figure at all.

Don't think I'm the only fellow with a brief about those dollar sheets of tickets in the transit system peddled to commuters these days. I've had dozens of people burst into shrieking profanity at the mere mention of these ticket sheets.

**IT'S DIFFERENT NOW**

Until I lost those 13 tickets I didn't pay too much attention to the matter.

Now I'm "again" this clumsy way of dispensing tickets with my whole heart and soul.

It isn't so bad for the women folk. The average woman jugs around a miniature trunk for what is basically called a hand bag. You could carry around in it up to a small outfit without filling it too full. But a man's trunk, to accommodate those big cardboard sheets of transit tickets, is a stuff them into a pocket as most of us males do, you're lucky if you have any tickets left to blow your nose. The sheets just naturally come out of your pocket with a handkerchief, an address book, or even a piece of loose change.

**NOT A MAN'S BACK ME**

Motemen are on my side too. I talked to about 20 of them in the past two days. They tell me the old sheets slow them to a walk during rush hours. Apparently they have to lug the sheets off their larger sheets.

On top of other annoyances, such as we've mentioned, one perforation does work worth a hoot. Unless you're very careful you find yourself pulling half a ticket in the fare box. All of this hup the people behind you during rush hours.

I think the city is really trying to do something on the cheap when they try to vend transit tickets in the same manner that milk and ice tickets are handled.

With fares at the present level the city should be able to afford some kind of a booklet for transit tickets.

## Cadomin Girl Wins Award

A fourth year honors mathematics student from Cadomin, Alberta, has been awarded the first University of Alberta War Memorial Scholarship.

Josephine M. Ferguson, 21-year-old daughter of Mr. and Mrs. J. M. Ferguson, Cadomin, has won the first \$500 War Memorial Scholarship, according to award lists released by University Registrar G. B. Taylor today.

While at University of Alberta, Miss Ferguson has also won a U. of A. Matriculation Scholarship and a U. of A. Honor Prize. She obtained her public and high school training at Cadomin district schools. War Memorial Scholarships were inaugurated in 1947 to aid the sons and daughters of war veterans through university.

A War Memorial Scholarship fund of \$85,000 was raised by contributions of the University Alumni Association, the Students' Union, business and other organizations and private individuals in the province.

Funds were turned over to the University Foundation and applications for the first scholarship were called for this summer.

"The scholarship is awarded on basis of academic ability, financial need and a priority system set up by the University."

**POST MORTEM** over training problems and future plans for RCAF Reserve Squadron is held in officers' mess by quartet after general meeting of top brass here at week-end. Meeting, convened by Air Vice-Marshal Hugh Campbell, air officer commanding North West Air Command, brought officers from Winnipeg, Saskatoon, Calgary and Vancouver. Younger officers, many with daring wartime exploits to their credit, include, from left: Wing-Commander L. M. Cameron, Winnipeg; Wing-Commander James Baillie, Saskatoon; Wing-Commander G. Northcott, Vancouver; and Squadron Leader W. A. McAty-Brown, Calgary.

**HOTTER THAN A GUN** is U.S. jazzband leader Lionel Hampton, ace instrumentalist on drums and vibraphone. Hampton and his band appear in Edmonton at Sales Pavilion Tuesday, Sept. 20.

## Two City Students Win Scholarships

Seven University and high school students from Edmonton and Northern Alberta have won University of Alberta scholarships and bursaries.

Names are contained in award lists released by University Registrar G. B. Taylor today.

Edmonton winners are: Maynard Shirley Bonnell, 17-year-old daughter of Mrs. Beattie M. Bonnell, 1412-15 street, winner of the University Women's Club Edmonton Matriculation Bursary.

Roy Frederick Clark, 23-year-old son of Mr. and Mrs. Fred Clark, 966-12 street, a Robert Tegler Special Scholarship.

On the list of students from the University of Alberta are: Graduate of the University of Alberta, winner of the University of Alberta Club Bursary is awarded on the basis of high marks obtained in Grade 12 examinations.

**FOURTH YEAR** medical student, Roy Clark has won a Robert Tegler Special Scholarship for the fourth consecutive year. Scholarship is awarded to handicapped students to aid their university studies.

Two high school graduates from the Stettler district have taken three awards between them.

Rudolph A. Eisenstadt, 19, son of Mr. and Mrs. G. A. Eisenstadt, of Stettler, has won a Douglas H. Sharpe and George H. Sharpe Memorial Scholarship, a Friends of the University Matriculation Bursary.

Orbaine Arnold Clark, 13, son of Mr. and Mrs. Clifford A. Clark, of Stettler, has won a Douglas H. Sharpe and George H. Sharpe Memorial Scholarship, a Friends of the University Matriculation Bursary.

Other district winners are: Rita E. Dickson, 16, daughter of Mrs. B. Dickson of Innisfail, 85 miles east of Edmonton, who won a Friends of the University Matriculation Bursary awarded to outstanding students from rural areas. Miss Dickson will enter nursing at U. of A.

**FROM CAMROSE**

"Third year honors modern language student Lloyd Douglas Wilson, from Camrose has won a Robert Tegler Special Scholarship. Wilson, now 23, is son of Mr. and Mrs. Fred E. Wilson, Box 485, Camrose.

Alexander Bailey Morrison, third year agriculture student from Vermilion, has been awarded a Henschenberger Scholarship for his study of co-operatives in agriculture.

## Labor Body Protests Editorial

Teamsters' Official Says Only 10% Opposed to Delivery

Less than 10 per cent of Edmonton consumers are opposed to the six-day delivery of milk, according to secretary David Erickson of Edmonton Teamsters and Chauffeurs union Local 514.

Erickson made this statement at last night's meeting of Edmonton Trades and Labor Council after he had strongly denounced a Bulletin editorial of Friday, Sept. 9, under the heading "Prompt Decision Needed."

Milk drivers at four Edmonton districts belong to Teamsters and Chauffeurs Union Local 514.

Said Mr. Erickson: "Our union members have made a careful survey of all customers on the question of six-day delivery of milk and have reported that less than 10 per cent advocate a return to the seven-day system."

But a Bulletin editorial was wholly incorrect when it states the six-day delivery system was foisted on the public last June. Members of our union wanted a shorter week for years. They gave long and earnest consideration to the problem.

"We could have gone on strike for weeks had we paid more for milk."

**KEEP DOWN COST**

"Daily officials also believed a six-day delivery system would keep 10 per cent of milk. As a result it was decided, with consent of the Board of Public Utilities, to give the public a six-day delivery system. Nothing was foisted on the public."

Erickson read from the editorial: "Disinfection became apparent within a month. What mothers found that milk for their children was contaminated over the weekend."

In March Dr. G. M. Little, Edmonton's medical health officer, urged an immediate reheating of milk. As a result, a system was permitted a six-day system, on the ground that milk had no refrigeration the curtailed delivery was a public health hazard.

Declared Erickson: "There has certainly been no objection pointed out. I will defy any doctor to prove our milk will poison anybody."

**NOT CORRECT**

Vice-President Joseph Cherrington observed the editorial appeared on the Board of Public Utilities rather than at the milk drivers, to which delegate Erickson replied:

"Perhaps it is technically, but information in it is still not correct."

Council decided to receive the report of the teamsters' delegate and carry a protest from the council to "The Bulletin."

**Labor Man Crusades On Behalf of Kiddies**

Vice-president Joseph Cherrington of Edmonton Trades and Labor Council wants more youngsters to have a chance to see senior hockey games this winter.

The Labor official again sought council support for his proposal made last winter to have a special section for youngsters at Western Canada League hockey contests.

He told council it is tragic to see a large army of youngsters hanging around the doors of the Arena at every senior game hoping to get inside and have a chance to cheer their idols to victory.

"These youngsters are the boys who make our future hockey stars. They should be inside instead of outside the Arena," declared Cherrington.

He denounced practice of large time that purchased tickets of 50 and 60 seats to "give to customers and friends" while kids were unseated at the games.

**MORE TICKETS**

Delegate Dave Erickson said he agreed there should be a section set aside for youngsters at senior games and if the Arena cannot provide accommodation a new rink should be built without delay.

Delegate Flower said he favored the plan but warned there would never be enough seats for all youngsters who wanted to see hockey games.

Council decided to ask Secretary Herbert G. Turner to press the city again for some kind of reserved section for youngsters in the Arena.

Vice-President Cherrington announced a meeting at Calgary on Thursday to discuss youth shifts for restaurant employees.

He said employees in smaller centres were pressing the government for an increased working day for shift workers.

**NOT THE CASE**

He said restaurant owners had represented through newspaper articles that present regulations concerning shift shifts had been brought about at the insistence of organized labor. This was not the case, he said, as employers themselves had agreed to terms of the present code regulating shift shifts.

EDMONTON, ALBERTA, TUESDAY, SEPTEMBER 13, 1949

Page 9

MAJOR A. W. PARROTT  
... Away from home.

## U.S. Officer in City Under Canadian Order

It may not be generally known but there is a United States Air Force officer stationed at North West Air Command here who takes his officers from RCAF superiors.

He is Maj. A. W. Parrott, DFC, AM, of Waco, Tex.

The general American from the deep south good-naturedly laughs at the implications of "taking orders" from an officer of a minority from which the United States was born when it fought its war of independence in 1776.

He is a staff officer on strength here for two years in an Anglo-American-Canadian exchange scheme. Similarly there are British and Canadian officers under command of USAF authorities for a like period.

Interviewed by The Bulletin, Maj. Parrott said "For all intents and purposes my day-to-day duties are those of an RCAF officer."

For the past three-and-a-half years he has conducted the only USAF helicopter school at its chief instructor at Waco.

His DFC and Air Medal were won in Flying Fortresses during battles in North Africa.

Married, he has two sons and a daughter at home with his wife here.

He has taken the RCAF helicopter out for a few times since his arrival here a few months ago, and probably will be giving instruction on the egg beater.

Grand Coulee Canyon is 33 miles long, 600 feet deep and from two to six miles wide.

## Union Body Has Praise For Gov't

Labor Act Discussions Termed 'Finest Ever'

Alberta's government won high praise for its round-table Labor Act discussions at last night's meeting of Edmonton Trades and Labor Council.

Vice-President Joseph Cherrington and Ed. Mogridge, of the Carpenters' union, termed government-called talks between employers, unions and board of industrial relations last summer "the finest thing that ever happened in Alberta."

Praise for the system inaugurated this year at the suggestion of Premier Ernest Manning came when delegates were discussing resolutions to go before the annual convention of Alberta Federation of Labor that opens in Lethbridge on Sept. 16.

**MORE MEETINGS**

"I would like to see committee meetings held to discuss changes in all acts on the statute books including the infamous Alberta Liquor Act," said Vice-President Cherrington.

Under the new procedure, Alberta Board of Industrial Relations issued from city to city discussing proposed legislative changes. A result employer groups have for more respect for labor than they had in the past and in all fairness I must say that labor has greater respect for the employer," said the vice-president.

**OFF GUARD**

Cherrington said that in past years city to city discussions "flowery" briefs to the legislative assembly and labor was often caught off guard.

"This year, lawyers representing employers had to discuss legislative briefs fully with labor representatives and government officials. As a result employer groups have for more respect for labor than they had in the past and in all fairness I must say that labor has greater respect for the employer," said the vice-president.

**Echoed Delegate Mogridge:**

"It was the finest thing that has happened in all the years of labor negotiating in the province."

Council instructed Secretary Harry G. Turner to go over minutes of past meetings and call out resolutions passed in present in the Alberta Federation of Labor convention.

President Tom Steele also urged additional unions to drop up additional resolutions for the convention without further delay.

At the time of the meeting, the Electrical Workers' Union to have the executive approval railway companies for purpose of obtaining convention rates for delegates was discussed.

Council also endorsed the suggestion that the provincial convention be "invited" to Edmonton in 1950.

A FEW CERTIFICATED MINERS WANTED

## Station Wagon Coat Is Stadium Standby

By Bea Thrifty

For the longest time I've had a secret hankering for a station wagon coat, or a reasonable facsimile. Since nearly shivering out of my skin on the grandstand last Saturday eve, my hankering has increased a hundredfold and is no longer secret.

So, today I was off for a tour of the sportswear sections in search of same.

Two different models of the durable, waterproof coat caught my eye.

One selling at \$29.50 was lined with quilted silk, and interlined with wool.

I have my choice of dark green and dark brown, snugly belted, and collared with soft brown mink fur.

No matter what I buy, though, I know I'll wear it for every type of fall and winter outdoor activity.

I have my choice of dark green and dark brown, snugly belted, and collared with soft brown mink fur.

Parakee-type jacket of beige wind-resistant fabric is another while buy for snow-time outdoor life.

Warmly lined in grey, red plaid, it features a matching plaid hood, and all for \$45.

Patel towels are all very effective in a bathroom, but not when their freshness is marred by small, sticky finger prints.

I found some towels today that are just as pretty, but not quite so perishable.

Dark jewel-like tones of ruby, sapphire, emerald, topaz are featured in these good quality towels.

Colors that put out a popular nail polish manufacturer's claim that you can have your favorite color always at your finger tips.

Five small bottles of polish contain five different colors, and the whole thing is yours for a dollar.

On yes, and a bottle of nail adhesive is included to keep your nails at their best.

### Household Arts

By Anne Adams

Get ready for Rush Week! Sew this gay classic! Everybody will be charmed with the maddled bodice and flare skirt flattering your pretty little figure. Has new high-neckline interest too! Easy-sew!

Pattern 4931. Size 12 to 18. Size 12, 38 yards 38-inch. This pattern, easy to use, includes all instructions.

WHAT YOU SNEAK out of the refrigerator is your business and you may find it fun to fool the whole family by losing a few pounds without letting them know you are on a diet at all.

## WHY GROW OLD Ice-Box Raiding Spoils Any Regular Dieting

By Josephine Lowman

It would be impossible to estimate the value in living which a loss in weight can create. Many persons feel that losing weight and all other projects which reflect personal vanity are silly. They do not recognize the great correlation between physical appearance and personality and self-confidence!

I have a very cute letter before me which emphasizes this point. The letter says:

Dear Josephine Lowman: I am proud of you and me! I have lost 15 pounds in 10 days and have lost five inches from my waist and some from my hips.

Had I dreamed that was "Wouldn't be so easy I would have done it months ago, but I didn't know."

"Now here is the payoff: 'I have done all that without having anyone know about it except you and me.' But even my closest friend, not even my children, I have not mentioned the 'diet' to anyone, mainly because my family is opposed to diet as belonging to the realm of the slightly daff or freakish or lame brains, with nothing else to do or to think about."

"These are the remarks of my family and friends: 'Mother, you are losing your figure.' 'Mother, you are certainly looking better.' 'From my husband—No big hips any more. Just a nice curve.'"

"From my son-in-law, who is a highbrow—'If my wife keeps as nice a figure as her mother I ask nothing more as to her appearance.'"

"Please do tell your readers how easy it is and how well worthwhile. I do think keeping one's mouth shut is important. I am going to lose eight pounds more and then stop—that's where I intend to look too thick around the middle. I feel wonderful, and am so happy."

"Thank you. A million times. For heaven's sake don't use my name. I'd get shot!"

Why Grow Old has nothing to do with age. It is a matter of the mind. If you would like to have my General Reducing Routine, send stamped, self-addressed envelope with your request for fast return to Josephine Lowman in care of this newspaper.

DOROTHY DIX SAYS

## Patience Better Cure Than Belated Divorce

DEAR MISS DIX: I am a woman past 50, married more than 20 years. When we married my husband had just \$5 in his pocket, but we worked together, saved and have prospered.

About a year ago, I found some letters that a woman had written my husband telling of an affair between them. This almost killed me, but he denies everything. Says he loves only me and wants me to stay with him, but I feel that I can never trust him again and want to live for him dead.

Would I be happier away from him? If he would confess everything and ask me to forgive him, I would feel so much better. Tell me what to do.

ALICE. ANSWER: No one can tell you what to do, poor, disillusioned wife. That is a matter that your own heart must settle, but I urge you to try to look upon your husband's indiscretion with as lenient an eye as possible, and believe that when he says there has been nothing between them, he is telling you the truth.

However, knows who? But middle age is the age of indiscretion with men. It is then that a man loses all caution in dealing with women and becomes the prey of any girl-digger who happens along.

It is then that one writes sad letters signed "Ladies Boy" that their lovers have to buy back. It is then that men who really adore their wives get into silly raptures that bewitch their wives' hearts.

It is then that a wise woman

## Horoscope

By FRANCES DRAKE

Look in the section in which your birthday comes and find what your outlook is according to the stars.

FOR WEDNESDAY, SEPT. 14, 1949  
March 21 to April 20 (Aries)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

April 21 to May 20 (Taurus)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

May 21 to June 20 (Gemini)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

June 21 to July 20 (Cancer)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

July 21 to August 20 (Leo)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

August 21 to September 20 (Virgo)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

September 21 to October 20 (Libra)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

October 21 to November 20 (Scorpio)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

November 21 to December 20 (Sagittarius)—You will have a very busy day. Your work will be very heavy. You will have to work hard to get the things you want. You will have to be very careful of your money.

## YOUR BABY AND MINE

## Favoritism Cause Of Child's Misbehavior

By Myrtle Meyer Eldred

One of the foremost causes of misbehavior in children is the belief that their parents do not love them. Strange as this may seem, it is not an unusual belief.

Parents do a lot of scolding and crying. They tell the child what he is, or what he is not, and often this is meant to stir him to be a better child, but more often convinces him only of his unworthiness.

Parents may seem to be partial to one child or another, because of its age, or its sex, or just because its personality is more comely than their own. But there is no surer way to inspire the unfavored child to be a little demon than to throw all the praise and appreciation and good-will toward another child in the family.

A Grandmother writes: "My 7-year-old granddaughter has a brother 4 who is a calm and better-disposed child than she. The boy is the father's favorite. The girl is very intelligent and is aware of this. And her every act shows her jealousy of the boy."

For 3 years she was the only child and was loved and made much of. But since Brother came and her Daddy came home from the war, she has been ignored and sternly coldly disciplined. I think the child feels unloved and insecure and should have her Daddy's love shown to her. I wish we could open her eyes.

Children are often jealous for no real cause. This child has sufficient cause, since she recognizes that this boy has supplanted her in her father's affection.

One must surmise that this father wanted a boy but accepted the daughter and showed her affection upon the boy just as an affection upon the girl. It is an old story, she is less attractive, she has some disturbing traits and he has turned into a stern, unloving disciplinarian.

No doubt he tells himself that it is all the girl's fault, if she were only this or that he would love her more. The truth is that she could be what he wants if she had the assurance of his affection, as she had it previously. Could your father, doctor, bring him to his senses?

Our lastest No. 36, "How To Be A Good Parent," discusses the necessity for impartiality. It may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

Have run faster up hill than down because their hind legs are longer than their forelegs.

## Chalmers Bazaar To Be Held Nov. 2

Bazaar will be held in Chalmers United Church Nov. 2. Plans for the event were made at the first regular meeting of the Chalmers Ladies' Aid. Shower for the bazaar will be held at the next regular meeting, Oct. 4.

Devotional was read by Mrs. C. E. Rogers. Mrs. C. Webster and Mrs. M. Briggs served lunch.

## The Canadian Family owes much to... Belgium.

For over two centuries, Canada has been the land of opportunity to settlers from almost every country in the world. Much of our strength and vitality stems from this blending of racial and cultural heritages.

It is a matter of pride to all Canadians that so many races, without sacrificing their national characteristics, have united themselves into one great citizenship—the Canadian Family.

Gallant Belgium, whose poppy-carpeted fields of Flanders hold tender memories for many Canadians, has sacrificed much in the cause of freedom. Comprising two distinct racial groups—the Flemings and the Walloons—she has given many of her sturdy sons to Canada.

Among them have been many distinguished figures in Canadian arts and sciences. The majority, however, specialize in agriculture and have done much to stimulate tobacco-growing in Ontario and Quebec. In the mid-west many have become successful farmers.

A devout, thrifty and dependable people, they have earned the respect of their fellow-citizens for their contribution to Canada's progress.

**Calvert** DISTILLERS (Canada) Limited  
AMHERSTBURG, ONTARIO

Calvert, Secretary of State to King James I, and head of the famous Calvert family, founded one of Canada's first colonies in Newfoundland in 1629. Calvert and his descendants fostered the principles of religious tolerance and democratic freedom and thus helped sow the fertile seed of democracy in the New World.

# Greatest Peace Threat Germany, Not Russia

Canadian Club Speaker Warns Canada  
Against Isolation Attitude to Germany

Greatest peace threat in Europe today is Germany, not Russia, Robert T. McKenzie told the Women's Canadian Club yesterday.

UBC summer school lecturer and authority on conditions in Germany, Mr. McKenzie spoke at the Macdonald hotel.

Mr. McKenzie is a UBC graduate who is returning to England to continue research work in political science at London School of Economics.

Industrial production in Germany is now 80 per cent of that of 1928, a fact which is being overlooked because of increasing tension over the Russian situation.

Rather than rejoice over results of recent German elections, the West should beware of a tendency to return to the extreme right, as before the war.

In these extreme and moderate right groups lies the real danger, Mr. McKenzie said. There are the same forces who sold out Germany in 1933.

Dismissing the fact that 90 per cent of the population voted against it, the speaker said, the German people have a tendency to vote for the party in power.

Warning against developing an isolationist attitude towards Germany, the situation was voiced by Mr. McKenzie who rejected the German plan to re-annex Austria.

He cited England as a country where German students are being admitted as part of the plan to re-educate other young Germans.

Young people in Germany don't understand the meaning of the word "war," Mr. McKenzie said.

Touching on the situation in Britain, the speaker requested the popular belief that the British are right or living on the edge of a knife.

He charged and spoke of England as a freedom-loving country free from tyrannical rule and witch hunting.

Daysland, Sept. 12.—Wedding of Joseph McCallister and Madge Blair took place at the home of Mr. and Mrs. J. C. Blair.

Brigadier is son of Mr. and Mrs. John McCallister. Madge Blair is daughter of Mr. and Mrs. J. C. Blair.

# BUSY HOLIDAY

Plagued by an almost endless succession of misfortune and frustrations, the Humphreys Mitchells were in Edmonton yesterday on the last lap of what started out to be a holiday.

The Labor Minister and his wife left their home in Ottawa last week for a much-needed rest at Jasper. When the Minister's secretary could not accompany them, Mrs. Mitchell took over their duties.

After arriving at Jasper, they were forced to come to Edmonton because of serious illness of one of the women in their party.

Yesterday morning, the Mitchells received word of the death of a dear friend.

EDMONTON A JINX  
Had luck follow us when we come to Edmonton, Mrs. Mitchell said. Last time they visited here, her husband was called back to the Prime Minister to attend a special cabinet meeting on conscription.

In spite of all this, Mrs. Mitchell likes Edmonton best of all western cities.

During their few days in Jasper, the couple did have a few days of rest and relaxation and talked with Mrs. Mitchell.

Scheduled to be back in Ottawa for the opening of the Parliament, Mrs. Mitchell has a busy fall and winter ahead of her.

Although she has had to put up executive work for health reasons, she finds the winter season in the city quite enough. "Ottawa is a miniature Washington," she says.

The Mitchells have their own home in the capital and, often entertain the wide circle of friends, retainers and foreign officials.

They have a married son in Toronto and another son in Vienna, Austria.

# Fifty Married Years Celebrated Today

By Edmonton Couple  
Edmonton, Sept. 12.—Mr. and Mrs. J. F. Philp are in Toronto today celebrating their fiftieth wedding anniversary.

Young people in Germany don't understand the meaning of the word "war," Mr. McKenzie said.

Touching on the situation in Britain, the speaker requested the popular belief that the British are right or living on the edge of a knife.

He charged and spoke of England as a freedom-loving country free from tyrannical rule and witch hunting.

Daysland, Sept. 12.—Wedding of Joseph McCallister and Madge Blair took place at the home of Mr. and Mrs. J. C. Blair.

# Mitchells Plagued By Misfortune Here

Plagued by an almost endless succession of misfortune and frustrations, the Humphreys Mitchells were in Edmonton yesterday on the last lap of what started out to be a holiday.

The Labor Minister and his wife left their home in Ottawa last week for a much-needed rest at Jasper. When the Minister's secretary could not accompany them, Mrs. Mitchell took over their duties.

After arriving at Jasper, they were forced to come to Edmonton because of serious illness of one of the women in their party.

Yesterday morning, the Mitchells received word of the death of a dear friend.

EDMONTON A JINX  
Had luck follow us when we come to Edmonton, Mrs. Mitchell said. Last time they visited here, her husband was called back to the Prime Minister to attend a special cabinet meeting on conscription.

In spite of all this, Mrs. Mitchell likes Edmonton best of all western cities.

During their few days in Jasper, the couple did have a few days of rest and relaxation and talked with Mrs. Mitchell.

Scheduled to be back in Ottawa for the opening of the Parliament, Mrs. Mitchell has a busy fall and winter ahead of her.

Although she has had to put up executive work for health reasons, she finds the winter season in the city quite enough. "Ottawa is a miniature Washington," she says.

The Mitchells have their own home in the capital and, often entertain the wide circle of friends, retainers and foreign officials.

They have a married son in Toronto and another son in Vienna, Austria.

# Report Given WCTU Meet

Reports on provincial convention of women's Christian Temperance Union were given at a recent meeting of the WCTU.

Mr. and Mrs. J. F. Philp are in Toronto today celebrating their fiftieth wedding anniversary.

Young people in Germany don't understand the meaning of the word "war," Mr. McKenzie said.

Touching on the situation in Britain, the speaker requested the popular belief that the British are right or living on the edge of a knife.

He charged and spoke of England as a freedom-loving country free from tyrannical rule and witch hunting.

Daysland, Sept. 12.—Wedding of Joseph McCallister and Madge Blair took place at the home of Mr. and Mrs. J.

FLOWING LINES of this autumn tupper made its graceful debut, draped for the fashionista model last Monday.

## Carol Beauchamp Wed at Highlands

### Double-Ring Ceremony Held Here For Braithwaite-Beauchamp Vows

Wedding ceremony was performed in a setting of gladness and cheer at Highlands United Church recently when Carol Beauchamp became the bride of Thomas Robert Braithwaite.

Flower girl was little Ardythe Beauchamp, three of the bridesmaids were Misses Jean Gordon, Jean Gordon, and Jean Gordon. The bride's father, Mr. Beauchamp, and the groom's father, Mr. Braithwaite, both attended the ceremony. The bride's mother, Mrs. Beauchamp, and the groom's mother, Mrs. Braithwaite, also attended. The ceremony was officiated by Rev. Father Charles Rotzinger.

Attending the bride was Miss Audrey Braithwaite, who was a bridesmaid. The bride's father, Mr. Beauchamp, and the groom's father, Mr. Braithwaite, both attended the ceremony. The bride's mother, Mrs. Beauchamp, and the groom's mother, Mrs. Braithwaite, also attended. The ceremony was officiated by Rev. Father Charles Rotzinger.

## BRIDGE This Hand Defeated By Taking a Chance

By William E. McKenney  
It is a well-known fact that in bridge, the hand that takes a chance often wins. This is the case in the following hand.

Hand: South is declarer. The hand is as follows: South: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ A K Q J 10 9 8 7 6 5 4 3 2, ♦ A K Q J 10 9 8 7 6 5 4 3 2, ♣ A K Q J 10 9 8 7 6 5 4 3 2. North: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ A K Q J 10 9 8 7 6 5 4 3 2, ♦ A K Q J 10 9 8 7 6 5 4 3 2, ♣ A K Q J 10 9 8 7 6 5 4 3 2.

Hand: South is declarer. The hand is as follows: South: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ A K Q J 10 9 8 7 6 5 4 3 2, ♦ A K Q J 10 9 8 7 6 5 4 3 2, ♣ A K Q J 10 9 8 7 6 5 4 3 2. North: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ A K Q J 10 9 8 7 6 5 4 3 2, ♦ A K Q J 10 9 8 7 6 5 4 3 2, ♣ A K Q J 10 9 8 7 6 5 4 3 2.

## Mauve, Green Provide Wedding Color Scheme

In her bridal gown of heavy white satin, Leona Marion Falkenberg was attended by her sisters, Naomi and Audrey, in dresses of mauve and apple green tulle, respectively, when she became the bride of Dr. Adam Clayton Waldo.

Married recently at McDonald Baptist Church, the bride is the daughter of Mr. and Mrs. Dan Falkenberg of Edmonton, and her husband is the son of Mr. and Mrs. A. R. Waldo of Trail, B.C.

Mr. and Mrs. Waldo were married at the church. The bride's father, Mr. Falkenberg, and the groom's father, Mr. Waldo, both attended the ceremony. The bride's mother, Mrs. Falkenberg, and the groom's mother, Mrs. Waldo, also attended. The ceremony was officiated by Rev. Father Charles Rotzinger.

## Amazing New RCA Victor Record Playing System Now Brings You

# Better Music at less cost

- 1. TODAY'S RCA Victor dealer's system is a complete system of recorded music. It's not just a new set of records or a new type of player, but an entirely new kind of music-making.
- 2. The instrument was to load more easily, and to change records more quickly, more quietly and more dependently than any ever built.
- 3. The new record had to carry as much music as the standard 10-inch record. All records for any type of music had to be the same size to leave you free to turn and play exactly the music you want, of any type, with no end-of-the-record trouble.
- 4. ROTIFIT the record and the instrument were to be modernizing by being at once modern and lighter.
- 5. It must do all this... and cost less.

**See it Today!

1. Summerland, B.C., Review; 2. Goodrich, Sask., Star.

## IN OUR Province

EDMONTON BULLETIN, Tuesday, Sept. 13, 1949 13

## Bears Switch To Whole Wheat Diet

PORT ST. JOHN, B.C., Sept. 13.—The bear population has increased to such an extent in this area that farmers are complaining they are damaging wheat and oat crops and breaking into granaries.

With one of the largest crops of 14,000 small ranchers on record in the Peace River (the shirt of Peace River near last county) and which means the 20th St. John was unable to harvest 10 million bushels more, farmers along the Peace River are having a hard time getting their wheat in. With open season on the Peace River, local residents find grain being eaten by bears and their cubs frolicking in the wheat fields and out of a tasty substitute, not counting the wheat they eat.

Eye witnesses, including C. C. Smith, Port St. John, say they have seen bears eat wheat and oat crops. One bear was seen eating wheat and oat crops. One bear was seen eating wheat and oat crops.

**Meeting Creek Grapin Is Moving**  
MEETING CREEK, Sept. 13.—First grain to be harvested this year was received by the Peace River. It was wheat grown on the Peace River. It was wheat grown on the Peace River.

**Carnival Planned**  
INNISFAIR, Sept. 13.—At a meeting of the Innisfair Lions Club, plans were made for a fall carnival to be held in Innisfair. The carnival will be held in Innisfair.

**Hanna Missionaries**

## Hotel Room Art Reasonably Safe

By Ken Liddell  
Provincial News Editor

If there is anything to keep a guy awake at night in a hotel, apart from singing of the people next door, it is the thought of getting up in the morning and seeing those pictures once more.

Where in the wide world do they get them? Certainly not in this wide world.

It is a peculiarity more than a coincidence that there should be so many people with such fondness for so many pictures of so many deer drinking water at so many brooks.

And what about that one of the animal with the big horns standing in the river? Probably washing his feet.

The expression on his big face is one of surprise. He couldn't look more surprised if one of his horns started to blow.

There is another they go in for. It shows some women wrapped in veils sitting on some old concrete steps in front of a pool with mountains in the background.

Some time we hope to run across a companion picture which will show what kind of a joint would have a pool so big it rives off mist. Or perhaps we go around dressed like that.

Then there's that man in the picture. With a setup like that he should be sitting on one side playing a lute. That must be what he is doing. From expression on his face he certainly isn't taking jokes.

Always remember spending a night in a country hotel room with a fellow who lay in bed for half an hour staring at a picture of a bunch of bananas on a table with some drapes in the background.

It bore the thoughtful title of "Fruit". Finally the fellow got up and turned the picture upside down and went back to staring at it.

After another spell of thought he got up again, looked it over in the wall. Then he went back to sleep. He didn't say a word.

There has been an evolution in hotel room pictures, even at that. Some time back in days of the big, black leather easy chairs in the lobby, there was quite a run on pictures of a bunch of dogs playing poker.

These were followed by an epidemic of baby-faced characters in kilts holding golf balls with what appeared to be hysteric risks.

Hotels, of course, in town or city, have their problems with people who walk off with blankets, towels, window blinds and various bathroom fixtures.

Which is probably the reason they hang such artless art in the rooms.

You have never heard of anybody stealing a picture from a hotel room.

At they did it would be only because they had some use for the frame.

**Innisfail Award**  
INNISFAIR, Sept. 13.—Martin Teichman was awarded the Innisfail 10000 scholarship of \$50. This student, who is 17 years of age, took the full grade 12 in one year, and received the highest marks.

He hopes to attend the University of Alberta this year to study medicine.

## Birthday Greetings

Dorothy Payne, 3770-180 street,  
has been arrested by police  
on charges of kidnapping.  
Dorothy entered  
the house through the back  
door and hid in the closet.  
She was found by police  
after a search of the house.

Dorothy Payne recently checked  
listening to the radio and to show  
her favorite sport.

# OIL

## Calahoe Test Shows No Oil

By Don Elch  
Mud and salt water were recovered in a follow-up test of Pacific Calahoe No. 1, which obtained a gas flow of 20,000,000 cubic feet daily and small amounts of oil from the well. Latest test reported today, which covered the interval from 2,800 to 2,850 feet, showed a recovery of 100 feet of the mixture of salt water and mud during the one-hour test, which the test was repeated. Previous test was of the interval from 2,800 to 2,850 feet, which is in a gas sand above the D.I. in addition to the gas 90 feet of oil recovered in the drilling. Gravity of the crude was 28 degrees A.P.I. The well is in an Imperial formation on land 1,000-2,000, about 20 miles northeast of Edmonton.

**PORT GASK, ABANDONED**  
Another Pacific oilfield, Port Saskatchewan No. 1, is preparing to abandon after failing to find commercial production. The well got a size of 180 feet of oil late last week, but this was not considered sufficient to make a paying well. A subsequent test recovered salt water. Abandonment plans were being set today with bottom at 4,748.

At Henderson, Calahoe 422, first well in the field this independent is taking on its own in drilling. It has been in the field since the well was drilled at 2,991. Neumont is coring at 2,882 feet and Bismore at 2,480 feet.

**NEW PACALTA AT 2,000**  
New Pacalta's third well is in the Whitehorse area. It is presently drilling just below the 2,000 feet mark. The well is on the same subdivision as the recently abandoned New Pacalta No. 2 on the 10-20-20-20.

On the subdivision immediately to the west 15 is a new company, Imperial Oil. Leasing is now being rig for the eighth well in the Whitehorse area. Imperial has drilled three wells with two successful ones. One has drilled two and is drilling a third and Chief Henderson, Hardy, and abandoned one. Drilling

## Fire Chief Defends Self at Hearing

## 'I Can Take It' Says

## McGregor In Testimony

Edmonton's fire chief "can take it" and doesn't care what his attackers say about him or his fire department.

"According to you, Mr. Smith, I know nothing about anything," snapped the fire chief.

The fire chief and his department are facing a tribunal charged with

Mr. Smith turned on the intruder. "Do you encourage your men to interrupt?" he asked Chief Macgregor.

**ONLY THREE**  
"I've got nothing to do with my men when they're off duty," was the fire chief's reply.

Chief Macgregor has testified that the city of Edmonton owns but three pieces of fire fighting equipment that can be relied upon.

Now, these men are harshly condemning you. I suggest they themselves should be condemned using a cardboard carton for "bage."

**DON'T CARE**  
The fire is believed to have started in the carton on the fourth floor of the building.)

"Have you told the city commissioners that such a plan is no good, that the equipment is needed right away?"

"No." The chief agreed with Mr. Gar-  
side that if a watchman had been  
on the premises when the fire  
broke out it never could have

know nothing about them, Am I correct?"

## Great Plans Underway For 1950 Grandstand

Patrons of the grandstand show at the 1950 Edmonton Exhibition are in for a much better deal.

This is the word direct from exhibition managing director James Paul who returned today from a nine-day tour of leading U.S. and Canadian fairs.

## BOY IMPALED ON STEEL ROD

**BIGGER, BETTER**  
Upon his return, Mr. Paul announced plans for a bigger and

"We have visited the largest fairs the North American continent," said today, "and I think we have

the rod. At hospital a spokesman said the boy's thigh was fractured. His condition is critical.

## East Weekly's Publisher Dies

MONTREAL, Sept. 13.—(CP)—Walter Legge, 58, publisher of the weekly newspaper, the Leader-Mail of Granby, Que., and a former

**DED INCENTIVE**  
Mr. Paul said the change had not been coming for many years, but the new added incentive this year can be seen in the new design.

he old grandstand, which housed 3,800 people, and limited

amount of money which could be spent on a grandstand attraction, been torn down and construction of an 8,000-seat stand is now under way. This will be ready in

Mr. Paul said the importation of numerous European acts will have bearing on the improvement of

At last night's council meeting, his application to have a lot in City Park Annex rezoned for a grocery business was referred to commissioners, who in turn will take the matter up with

erably, \_\_\_\_\_ in turn will take the matter up with the town planning commission. \*

## Federal Grants For Roads Urged

### Good Roads Association Gets Suggestion At Banff Meet

LAKE LOUISE, Alta., Sept. 12.—(CP)—Federal grants toward the cost of interprovincial road connections were urged at the 50th annual convention of the Canadian Good Roads Association yesterday.

## SHADES OF THE GREAT

LONDON, Sept. 12.—(CP)—William Worthington, who claims to be a descendant of that poet of that name, is a theatrical publicity agent in London.

Across the street from his office is "K. Kipling, Book-seller and Stationer."

## Rustling Ring Said Broken

LETHBRIDGE, Sept. 12.—(CP)—RCMP said yesterday that the recent arrest of four persons smashed the most serious wave of cattle rustling to break out in southern Alberta in recent years.

It is believed more arrests will be made. Stockmen in this area have complained in recent weeks of increasing numbers of cattle disappearing.

Arrested near Red Deer in central Alberta last Friday after nine cattle stolen from a Lethbridge district range were found in the Calgary stockyards were three Lethbridge men and a Calgary woman.

## THOSE CHARGED

Charged with cattle rustling are John Sawchuk, Joseph Orszak and Kenneth Soltek of Lethbridge and Valerie Whalen of Calgary. The latter has been employed as a waitress in a Lethbridge cafe since early this year. The four were reported to Friday when they appeared in court here last Saturday.

RCMP termed the cattle rustling wave as "most serious" and said the thefts occurred throughout the summer.

The stolen cattle found at Calgary were taken from the herd of Richards Brothers of Coldlake, Alta., and shipped by truck in the mobile city where stockyard inspectors noticed the brands were not in order.

The four persons arrested are suspected of being involved in more than the one theft with which they are charged.

## Natural Gas Reserve Jump Favors Export

By KEN LIDDELL  
Provincial News Editor

JASPER, Sept. 12.—Since a government commission set Alberta's known gas reserves at over 4,200,000,000 cubic feet a year ago, they have risen to 6,000,000,000,000 cubic feet, according to a report issued yesterday by the oil industry, said in an address to Canadian Weekly Newspapers Association convention last night at Jasper Park Lodge.

Mr. Nickle said the provincial government may be asked to approve the next few months and a huge market was literally waiting to be bought. This province could be in the foreseeable future.

## PINCHER CREEK

He said the big jump in reserves had come through Pincher Creek, which added an estimated 1,200,000,000 cubic feet and from at least a dozen still unvalued gas strikes at wells drilled in search of oil.

Huge total of reserves, over 50 per cent of all known gas reserves in the world, is now in Alberta. A bucket to reserves that could be produced in the province if there was a large market for spending money to find them, he said, and export would provide the reason.

He said the market at Saskatchewan was being developed by the west U.S. companies as Minneapolis, Minn., the great smelter of Trail, B.C., also a developer, in Washington, Oregon and northern California.

## ANSWERS ARGUMENT

He said opponents' argument that industries competitive to Alberta's own would be given advantage of Alberta's low cost fuel could be answered by the fact that gas piped over long distances would cost more than at the source.

"I sincerely believe Alberta's best short term long term interests will be served by treating gas exactly the same as we do other products which we turn out far more than Alberta alone is capable of consuming," he said, referring to agricultural products.

He said opponents' argument that industries competitive to Alberta's own would be given advantage of Alberta's low cost fuel could be answered by the fact that gas piped over long distances would cost more than at the source.

## 300 Teachers Gather For East CEA Meeting

FREDERICTON, N.B., Sept. 12.—(CP)—Canada's schooling system this week will come under the eye of some of the "top brass" in the field of education.

Provincial ministers of education and teachers, parents and school trustees are among the 300 delegates assembled here for a convention of the Canadian Education Association.

The country school-house made the agenda this first day of the three-day meeting when L. A. Thurber of Red Deer, Alta., was chairman during a group discussion on the problems of rural administration, trustees and inspectors.

## VARIED PROBLEMS

Other group meetings included one on correspondence courses under the chairmanship of Dr. G. B. Buck of Regina, president of the Canadian Council of Correspondence Education.

Audio-visual education was the subject of another discussion led by H. L. Campbell, assistant superintendent of education at Victoria.

## Arctic Landing Craft On Voyage's Last Lap

TUKTOYATUK, N.W.T., Sept. 12.—(CP)—The 160-foot Yellowknife Expediter today rounded the home turn in a 5,500-mile voyage unique in the annals of northern commercial navigation.

The vessel, a converted United States Navy training craft, left this northern port for the final 2,200 miles up the Mackenzie River to Great Slave Lake. She has logged 4,300 miles since leaving Victoria, B.C., Aug. 14.

Over 4 by Arctic Marine, a subsidiary of the Yellowknife Transportation Co. at Edmonton, the ship will run freight from Great Slave Lake through the Northwest Territories.

The previously untried route is the only way of getting her in without dismantling her.

Veteran coast seaman Capt. Frederick I. Coe brought his command into harbor here just 26 days after leaving Victoria, B.C., Aug. 14. Sailing time was a little over 37 days, with an average speed just over nine knots.

Her trip was smoother than expected. Head winds and a few minor mishaps caused delay, but the route between Point Barrow, Alaska, and here was made in record time. The northerly stretch was surprisingly free from ice.

## TROUBLE EXPECTED

From here on it will be more tricky. The Mackenzie is falling rapidly, and the Expeditors 15-man crew unloaded 6,000 gallons of diesel oil, which will be used to burn the ship's fuel. The ship will be followed by a tugboat, which will be used for tourist cruises on the Mackenzie. W. H. Wilson, Edmonton manager of Yellowknife Transportation, said the tourist attractions there were "second to none."

**EATON'S**  
Wednesday Morning Values  
9:30 a.m. to 12:30 p.m.  
To Call EATON'S Dial 9-1-2

## On Main Floor Boys' Blue Jeans

Sturdy pants for everyday and school wear... made of strong blue cotton denim. Rivets at points of stress and all seams are double sewn.

EATON'S Bargain Section, Lower Floor, East

## T. EATON & CO. LIMITED

**NEXT LOOK** lines of 1950 Studebaker passenger cars are readily discernible in this four-door Champion sedan. In addition to advanced styling by Raymond Loewy Associates, there is new riding comfort resulting from Studebaker's self-stabilizing coil spring front suspension. Luxurious interiors and maximum passenger space characterize all Studebaker models.

## 1950 Studebakers Show Changed Frontal Design

New 1950 Studebaker passenger car models are now being displayed in the showrooms of Mills Motors, Limited, Edmonton.

"These are the automobiles which generated so much enthusiasm when they were introduced in Toronto at the Canadian National Exhibition," according to Frank Mills. "These new cars are an entirely different in appearance that it is difficult to do them justice by trying to describe them," he said. "I am particularly anxious for the people of this area to visit our sales rooms and see for themselves."

## PARTICULARLY STRIKING

The front end of the 1950 Studebaker is especially striking. Mr. Mills pointed out. It embodies an upsurge face-like hood, flanked by airfoil front fenders, and set off by a chrome "splitter." In addition to providing an ornamental touch, the "splitter" suggests front fenders opening with direct air to the engine for maximum cooling. The largest of these air passages consists of two oval-shaped honeycomb grille apertures located below the two smaller air channels which flank the "splitter." Chrome moldings over these small, two channels contribute to the unusual decorative effect.

Mr. Mills believes that the complete change in frontal appearance and fender treatment will be of special interest to automobile enthusiasts. "It makes the cars look as if they are in motion even when they're standing still," he said.

## CHASSIS MODIFIED

Riding and handling qualities are greatly improved, too. There are
